Project Team

Brian Vogel, PE

Civil Engineer

Attributes

As a principal with ***Hall & Hall Engineers, Inc.***, Brian has provided civil engineering design and management for a variety of clients throughout the Midwest over the last 13 years. With the support of a dedicated and talented civil design team, he has worked on numerous projects representing almost every industry sector. Brian has also put his experience to use managing major multi-faceted development projects from conceptual design through final design and construction. Brian is well adept in the design of complex site conditions requiring expert knowledge of utility coordination and future expansion planning.

Brian's primary responsibility is project management with emphasis on design, client communication, and project schedules. In close coordination with teams of accounting, administrative, information technology, and human resource professionals; he ensures all business operations of the firm are consistently handled in keeping with *Hall & Hall Engineer's* core values of respect, integrity, client satisfaction and excellence.

Partial Job Listings

Johnson County Health and Human Services – Iowa City, IA
Completed civil design services for the 90,000 SF County building including site planning, grading, storm water management, pavement, utility and grading design and preparation of construction documents. The project was awarded a LEED Silver status.

Oak-Hill Jackson Urban Infill Housing – Cedar Rapids, IA
Completed civil design services for the 1.1 acre site including site planning, grading, storm water management, pavement, utility and grading design and preparation of construction documents. An urban rain garden provides water quality detention and promotes infiltration of rain water back into the soil.

Linn-Mar Aquatic Center – Marion, IA
Completed civil design services for the 28,000 SF facility including site planning, grading, storm water management, pavement, utility and grading design and preparation of construction documents. A key component of the design was to position the building on a grade break warranting entry's into the building to be at different floor heights with the goal of keeping spectators away from the pool deck.

Present Employer/Business: Nextera Energy Duane Arnold Energy Center; Palo, Iowa

Work and volunteer background: (include previous board or commission experience) Employed for seven years with the City of Hiawatha as Deputy Fire Chief. Part of my job duties consisted of fire inspections, code development, and code enforcement. I have been a volunteer Captain/Paramedic with the Hiawatha Fire Department for the past fourteen years.

Reason for interest: I have a general interest in construction, building codes and NFPA standards. I also have a great amount of pride in the City and I want to ensure that Hiawatha stays on a path of success when it comes to building high quality structures and property.

Michelle M. McIllece, MBA

Michelle's professional experience has been in higher education, non-profit operations and program development, and corporate staffing and recruiting. Her experience has focused on the creation, delivery, and evaluation of learning tactics to facilitate both individual and organizational growth; she specializes in creating strategies to teach people how to pursue fulfillment in their professional lives. This has included business consultation, course development and instruction, writing and editing, public speaking, proficient use of technology, career counseling, and assessment. Developing focused, purposeful programs and measuring their results has enabled her to contribute to significant, quantifiable, and meaningful outcomes for businesses and for individuals. In her current role as a Learning Commons Consultant/Academic Support Coordinator at Coe College, she specifically works with college students to help them strategically develop and implement plans for academic success.

Michelle has a Bachelor of Science degree in Psychology and a Master of Business Administration, both from the University of Iowa. Originally from a smallish town near Rockford, Illinois, she has been a proud Hiawatha resident for nearly 7 years and has lived in the Cedar Rapids area for 20 years. She loves Hiawatha because it has a small-town feel (it's awesome to have lengthy conversations about nothing with the city hall staff when you go to pay your water bill), the best parks this side of the Atlantic Ocean, and easy access to anything you could possibly need in life. Her family includes her husband Jens, who likes to keep a low profile but easily puts up with his wife's shenanigans; their son Luke, who is almost 9 and plans to be President someday (maybe mayor of Hiawatha?); three rescue cats; and a big dumb dog who likes to escape the house and take himself for walks in the neighborhood every once in awhile. Her hobbies include running, crocheting, not cooking, and driving Luke in circles around Hiawatha so he can get to all his camps, practices, and playdates on time.

Hiawatha!™

Memo:

Honorable Mayor and City Council Members;

Due to the vacancy of one chair on the Hiawatha Water Department Board effective January 1st 2018, I would like to recommend the appointment of Carl Ransford to the Hiawatha Water Board.

Carl Ransford has been the Water Superintendent and employee of Hiawatha for over 40 years. Carl has knowledge of the Hiawatha water system, the needs and issue that arise and would be an asset and great value to the Board.

Please consider my recommendation and appoint Carl Ransford to the Hiawatha Water Department Board.

Thank you

Marty Recker

Water Superintendent
