HIAWATHA FIRE-RESCUE

MEMORANDUM

TO: HONORABLE MAYOR, HIAWATHA CITY COUNCIL

FROM: MIKE NESSLAGE, FIRE CHIEF

SUBJECT: MONTHLY REPORT FOR OC

DATE: 12/13/2018

Attached are the monthly statistics for November 2018. We had 109 responses in November. Year to date ending November 30th we had 1196 responses, compared to 1176 in the same time period of 2016 and 1159 in 2016.

The newest class of rookies is completing their training. They have turned out to be a highly motivated group, and are already contributing to HFD on many levels.

The gator has arrived at P&K and they will be doing the prep work on it. Several members reviewed the engineering drawings for the slide in pump/EMS slide in unit and I signed off on that this morning. Next week we will meet with RACOM reference the lighting. We expect the unit to be complete at P&K around January 7th and go to RACOM after that.

I continue to meet with regional Fire Chiefs. Chief Krebill and I are taking the lead on the county fire chiefs association. The by-laws and constitution have been written and the Chief's will meet as a group in January to continue the incorporation process. We've been working with Mark Parmentar and the Robins Chief on automatic mutual aid agreement with Robins. The Monroe Township chief has also been involved in those discussions. I met with the dispatch supervisor to discuss implementation. County is still working on an upgrade to their CAD system, and until they get that update done, they can't move forward.

On the station, we continue to work toward ADA compliance, especially in the public bathrooms. There will be a few things that will have to wait till spring to accomplish, including handicap parking and fixing some concrete that has sunk over time. In the multipurpose room, the 5th wall bed has arrived and the duty crews have been working on installing that.

I met with Peter Tehan and Mary Kelchen from the The Red Cross. They are working on a major smoke detector initiative in the metro area next April 27th. Their goal is to install 1000 smoke detectors in the metro area. In order to do that they believe they need to "touch" at least 4000 homes just to find the homes that will allow us in and need new detectors. They have volunteers, smoke detectors, and equipment. We will help them with some foot work ahead of time, and will help publicize the program.

Incident Count by Weekday and Hour for Zone and Date Range. Zone information is defined on the Basic Info 3 screen of an incident.
Only REVIEWED incidents included.
Maximum call volumes for each day are shown with a RED background, and maximum call volumes for each hour are shown with a BLUE background.
"% of Responses for Day" indicates the maximum hourly call volume as percentage of total calls for the day of the week.
"% of Responses for Week" indicates the total number of calls for the day of the week as a percentage of total calls.
