Date: December 15, 2016

Re: November Public Works Report

Streets – November averaged about 8 degrees warmer than normal which really helped our Emmons/Center Point Rd intersection project. A lot was done there. We finished the leaf bag pick up and got some of the leaves swept up on the streets. We installed the stop signs and street name signs in Heritage Green 12th Addition. We put up and took down the flags for Veterans Day. We got all the snowflakes installed. The LED street light issue has been resolved. The manufacturer has determined that the driver(ballast) in the light heads is not working correctly. They have agreed to replace all the drivers at no cost to the City. I'm waiting to hear back on their replacement schedule. We worked with the CN Railroad to improve the RR crossing on Robins Rd. Vehicles serviced: M12, M16, M8, 700, City Hall snow blower.

Sewer – We are still are working on a few issues with Ricklefs on the Sewer/Water Project along Edgewood Rd. All lift stations are working correctly.

Storm Water – There were some issues with the catch basin on Emmons St. by Center Point Rd not draining very fast. We did some investigating and ended up replacing a section of pipe that was broke.

Actual hours worked by Public Works employees in each department. Leave with pay hours are not included.

	Streets 21010		Snow 25010		Parks 43010		Sewer 81510		Water 81010		Storm Water	City Hall
	Reg	OT	Reg	OT	Reg	OT	Reg	OT	Reg	OT	Reg	
Total	562.5		1		9		50				89
