HIAWATHA FIRE-RESCUE

MEMORANDUM

TO: HONORABLE MAYOR, HIAWATHA CITY COUNCIL

FROM: MIKE NESSLAGE, FIRE CHIEF

SUBJECT: MONTHLY REPORT FOR NOVEMBER 2016

DATE: 12/15/2016

We responded to 102 calls for service in November, with year to date calls of 1155, up from 1114 last year. For all of last year we had a total of 1205 calls. As of today (Dec. 15th) we have had 1227 responses. We have seen an uptic in the number of fires, particularly cooking and oven related incidents. In November and into December we had a spat of fires that are classified as structure fires. We also responded to an unusual call on November 8th. CRPD and the US Marshalls were involved in pursuit that ended in Hiawatha, on Chaffee Drive, with the car crashing and catching on fire. On November 18th, it was a cold, windy night when we responded to a shed fire on 8th Ave. A discarded cigarette ignited some dried leaves, which in turn set a Rubbermaid shed on fire, which spread to the house and dropped a power line. We were able to minimize the damage to the house and get the renters back in to their home in a couple of days. We had several other fires so far in December that I will cover in the December report.

We continued fire prevention activities into November. Rockwell Day Care and Robyns Nest Daycare both came for visits in November. I gave a winter fire safety speech at Nixon Elementary. We continue to install batteries and replace smoke detectors for residents. We have received some donations as a result of that program and have set that money aside in a fund for that purpose. We also received a donation of 6 new, high quality smoke detectors for that program. For your knowledge, we will help out replacing batteries for almost anyone-however we do not replace smoke detectors if it is a rental or commercial property. We will advise and assist but that rest with the property owners.

I attended the Iowa Emergency Medical Services conference in Des Moines from November 10-12. There were some excellent EMS classes available and it gave me the time to refresh and do some networking. Shelby and Zach attended an Incident Command System class at the Sheriff's office also. This is part of their professional development as staff. We had a timely class on electrical safety for fire training, and Doctor Sagers conducted a class on syncope (fainting) for EMS training. By now you know you approved 8 new volunteers. In November, Matt spent considerable time with those individuals, interviewing them and going through the on-boarding process prior to brining them to you. He also put a lot of time into the SCBA and compressor grant. I have been working on facilities issues. We had the tile floor cleaned and the grout sealed and also had the HVAC duct work cleaned. Along with that, I worked on getting budgetary quotes for replacement of carpeting in several rooms, the overhead garage doors, and worked with the vendors on estimates for the lighting project. We also had members attend a career fair for medical fields at the Kirkwood Regional Center, where they had the opportunity to do some recruiting.

On behalf of the firefighters and myself I'd like to wish you a safe had happy holiday season; remember that space heaters need space. Candles, decorative lights, and space heaters should be shut off when you leave the room. Never leave stove cooking unattended. If you have a pan fire "put a lid on it", don't try to move it or use water. If you have a fire in your oven, shut it off, close the door, and call us. Make sure you dispose of cigarettes in a safe manner, and check your smoke and CO detectors. I'm sure at least one of you is chuckling at me right now…but if everyone would do these things, it would reduce our losses and our calls, and I wouldn't have to go out in the cold. Finally, if you need us, call us, but please try not to need us. Happy Holidays!

Hiawatha Fire Department
