Re: January Public Works Report

Streets – January didn't have much snow. We were able to get all the Fire Dept vehicles serviced plus several others. We removed all the snowflakes and stored them till next year. The new tandem truck was delivered and is working great! Thank you, Council! Vehicles serviced: 570, 300, 720, 550, 910, 710, 750, R-284, E-286, 285, 281, 580, M16, C12, C15, 770, 850.

Sewer – We had a break in the force main at the Mitchell lift station. We called in Ricklef's to repair it. This section of force main will be replaced this summer. Everything else is working fine.

Storm Water – Nothing to report.
