Re: June Public Works Report

Streets – I can't believe June is over already! Where did it go? We have been working with the Parks Dept. on the tree inventory and we are about done. We got all the crosswalks, stop bars and turn lanes painted. We also painted all the City owned parking lots this year. It's been a while since some of them had been done. We did work on some sign replacement on 10th Ave. We did our usual mowing, pothole filling, locates, and project checks. Vehicles serviced: 720, 730, 800, 810.

Sewer – Not much was done on the Edgewood Rd Water and Sewer project is going well. Gravity sewer main is done and now they are waiting for the lift station shelter to come in.

Storm Water – We had some decent rain events and everything worked well. Nice to see the good drainage we now have on Industrial Ave.

Actual hours worked by Public Works employees in each department. Leave with pay hours are not included.
