Re: October Public Works Report

Streets – Well we had our first snow fall already!! I don't remember ever having one this early! Our Fall is pretty much over. We did get the flashing speed limit signs installed on 18th Ave. They work great! Now with 18th Ave construction it's hard to collect good data. The amount and variety of data that you can collect is impressive. Chief Marks loves them.

Other projects we completed/worked on:

- Repair street patch on 1st Ave.
- Plant 21 trees in ROW with Tree's Forever grant.
- Check locates
- Winterize irrigation and splash pads.
- Did our first leaf pick up.
- Mow ROW.

Vehicles serviced: 850, 720, M12.

Sewer – I have lined up Electric Pump to do our annual lift station inspections. They will be here in November.

Storm Water – We have some drain tile to replace along Emmons St between 18th and 19th Aves. Hopefully we can get it replaced yet this year. We tried to jet it but we hit some roots so we'll have to dig it up.
