Re: December Public Works Report

Streets – Snow season is here but we didn't have enough snow last month to plow. We did go out a few times to sand the streets. We spent several days removing brush and stumps from the Dog Park.

Here's a list of some projects we did in December.

- Dog Park brush and stump removal
- Haul stumps and brush from shop
- Review and update snow plowing and sanding route maps
- Replace cables on wing plow on unit 570.

Vehicles serviced: 820, 830, 770, 510, 585.

Sewer – Received a report of sewer backing up at 209 7th Ave. We jetted the sewer main and found no blockages. Turns out that the homeowners sewer service had collapsed and they have had it repaired. Litchfield Dr sewer backup: we had all the sewer main lines in this area televised and found no major issues. It appears that a combination of minor issues, including increased flow, Water Dept flushing iron filters and these 2 houses sitting lower than other houses in the area caused this sewer back up. We are working on a long term solution to this problem.

Storm Water – We received a complaint about the storm sewer that runs under Boyson Rd and along the East side of 935 Boyson Ct parking lot. The water during heavy rains was washing the bank away. We extended the pipe and added more erosion stone. In the spring we will add some black dirt and seed it. This should take care of this issue.
