HIAWATHA FIRE-RESCUE

MEMORANDUM

TO: HONORABLE MAYOR, HIAWATHA CITY COUNCIL, CITY ADMINISTRATOR

FROM: MIKE NESSLAGE, FIRE CHIEF

SUBJECT: MONTHLY REPORT DEC 2019

DATE: 1/11/2019

During the month of December we responded to 107 calls for service. We ended up the year with 1303 calls for service, up 3.8% from 1255 last year. I am preparing an annual report with more in-depth information on the 2018 calendar year.

The tragic death of a Clinton Firefighter, and traumatic injury of another is foremost on our minds this week. We will have several individuals attending the funeral, and we have been asked by Camanche FD to provide a crew to cover their town, so they can attend the funeral. Clinton and Camanche have a similar relationship like Hiawatha and Cedar Rapids Fire, with overlap between the two departments. One of the involved firefighters was a Camanche firefighter. It is important that they be able to attend, I am quite honored that they trusted us enough to contact us and ask for our help.

Thank you for attending the 2018 Awards Ceremony on Monday night. Your presence was appreciated and noted. Besides the high points of the Paid and Volunteer Firefighter of the year awards, the rookies were very proud to be sworn in as members. The Oath is something new for us, but well received and we will continue it. Recognition was one of the items in the previous strategic plan and we will continue to look for ways to celebrate successes and outstanding performance.

I have been working with the Membership committee, in particular their chair Deb Rasmussen on volunteer remuneration. We will be brining that to you in the near future. This was another item in the strategic plan.

The "process" of going through the Master Plan has been very helpful for us. Powers, Jellison, and I have all had conversations with the evaluators over the course of the project. Even before they finished the report they gave us ideas on where we needed to go. We are very comfortable on the recommendations and are going to begin moving forward with them. The next step for us is going to be a couple of sessions to develop a plan for moving forward on items we can quickly address. Separately we will begin working on a strategic plan for the next 5-10 years.

The Gator and the slide-in have arrived at P&K. The slide in unit was damaged in transit; I'm fortunate that P&K and the Manufacturer are working together to on the claim on our behalf. The damage part was the hose reel, which can be easily swapped out and replaced. It has been shipped to us.

The Chief's and training officers from Hiawatha, Monroe, and Robins met last week. We had a very productive meeting. We have agreed to doing more joint training. We have scheduled two joint training exercises for the spring and summer. Along with that we are going open up our medical trainings to all three agencies. We are also looking at scheduling training opportunities from outside the region, and splitting the underwriting cost between the three. Chief Krebil and I met in December, but we did not take any action on the County Fire Chief's association during the holidays. Taking the lead and supporting regionalization is listed in the master plan.

We had a second organizational meeting with the Red Cross, CR Fire, and Marion Fire on the Red Cross' "Signature Event" smoke detector push scheduled for April 27th. They are doing much of the work on this, but are looking for us to determine target areas. We will target areas of town built before the 80's in an attempt to insure those homes have smoke detectors. Although we have target areas, anyone who owns a home will be eligible for the program.

Other activities for the month:

- Several members went to East Dubuque for their light and fight training event. This gave them exposure to trainers from Eastern Illinois.
- Chief Powers attended the Central Iowa Training Association meeting. This group works on the Kirkwood regional fire school.
- Chief Nesslage attended 9-1-1 board meeting
- We gave a fire truck ride home to a winner from one of our school contest.
- We hosted Pack 63's "Raingutter Regatta"
- The Duty Crews gave several station tours in the evening.
- Truck 1, the aerial ladder, was inspected by Underwriters Labs and with the exception of a gauge, passed.
- The duty crews provided EMS stand-by during a rainy Reindeer Run event.
- Jellison provided training on opiate overdoses to the police officers.
- We also had training from the Eastern IA Heroin initiative on the opium epidemic and the work they are doing.
- Brunscheen and Powers completed two industrial inspections last month at CCB and Newell Machinery.

December 2018 Report
