HIAWATHA FIRE-RESCUE

MEMORANDUM

TO: MAYOR, HIAWATHA CITY COUNCIL, CITY STAFF

FROM: MIKE NESSLAGE, FIRE CHIEF

SUBJECT: MONTHLY REPORT SEPTEMBER 2019

DATE: 10/11/2019

Attached is the statistical data for September 2019. We responded to 113 calls for service in September, and 1061 calls for service so far this calendar year. In the last 12 months we've responded to 1,380 calls for service. Our activity is 8% above last year.

Fire training in September comprised of relay pumping and 2 company drills. This is where two crews work together as if they were attacking afire. Chief Powers made presentations to the department on Fire Service Organizational Culture of Safety. This is a program that he and Capt. Scott Studt have been working on together. They will be presenting to you early next year. Members attended the Kirkwood CITA Fire School, and a water supply drill with Cedar Rapids and other metro departments drafting from a pond and using tankers to move water. Chief Powers and Lt. Brunsheen also attended several training sessions on fire inspections put on by the University of Iowa. For EMS training completed quarterly skills. Other activities include; Participating in a Overdose Awareness Event at Guthridge Park, doing fire extinguisher demo for Climate Engineering, and doing EMS stand-by for Pleasant Creek Trail Run and Kirkwood CITA Fire School.

Sean Dietrich has resigned to take a position with the Cedar Rapids Fire Department. He was hired full time by us last winter. Dietrich's departure leaves us with one full time firemedic, where we are authorized for two, and the Master Plan recommends three. We additionally loss Ben Kjome, a very active volunteer firefighter/paramedic who moved out of town. Other volunteer paramedics and Chief Powers and I have been covering those gaps for now. Ideally, we should have 3 full time fire medics. Currently we are only authorized for two. We will be discussing this with you at budget time. We have posted the opening and began the process of filling the open position.

Separate from hiring full time and part time paid employees, we have enacted a hiring freeze on new volunteers. It takes nearly 8 months' time and significant investment of staff to bring new recruits to the level of being competent for basic firefighting. While we are investing in the basic training, advanced training for members who have been on 2-5 years has suffered. We are going to spend the time advancing those members to the next level of competence. We will be offering an advanced firefighting class that goes beyond firefighter 2 certification. Along with that we are implementing minimum training requirements for members who are already on.

As I type, the crew is returning from a visit to Hand in Hand Day Care. We are in the middle of fire prevention month. This week I believe we have seen almost 150 kids. Next week will be even busier. I'm proud of the effort we are putting into fire prevention. We do a great job with our public education both at the adult and child level. Deputy Chief Powers and Lieutenant Brunscheen have made significant impact with fire code enforcement and preplans. We have been busy already helping elderly people with smoke detectors, and October 26 we will be working with the Red Cross to reach out across the community to change batteries and update smoke detectors.

Please be sure to join us on November 2nd, between 11 and 7, for our annual chili supper.

Incident Count by Weekday and Hour for Zone, for Shift and Date Range. Zone information is defined on the Basic Info 3 screen of an incident. Only REVIEWED incidents included. Maximum call volumes for each day are shown with a RED background, and maximum call volumes for each hour are shown with a BLUE background. "% of Responses for Day" indicates the maximum hourly call volume as percentage of total calls for the day of the week. "% of Responses for Week" indicates the total number of calls for the day of the week as a percentage of total calls.
