Re: Multi-purpose truck body and snow plow

On May 12th, we mailed out RFP's to 3 companies for a multi-purpose truck body and snow plow. On May 31st, we received 1 proposal from Henderson Manufacturing. I have reviewed the proposal and recommend that we purchase the unit from Henderson Manufacturing for $81,577.00 and add option #2 Hi-lift Tailgate for $1,750.00. We have purchased this type of body before from Henderson and have had good luck with them. Funds for this are available in the Equipment Reserve Fund. In FY18 there will be $159,457.00 for purchase of the truck and body and plow to replace the existing truck #500. The total cost of the truck, body and plow will be $169,977.00. With the sale of the old truck, that will make up the difference needed to purchase the new truck. Anticipated delivery of truck complete with body and plow will be sometime in November.
