Date: March 14, 2019

Re: February Public Works Report

Streets – Well, February was another month of a lot of snow! KCRG reported we had 22 inches. Pretty much everything we did this month was snow related. From plowing and sanding to hauling snow, salt and sand. In between all this we changed blades on the trucks and tried to keep them clean. Luckily, we had no major breakdowns of equipment. Let's hope March is better!!

Vehicles serviced: 800, 810.

Sewer – Nothing to report.

Storm Water – With some melting of snow and rain occurring, we have been cleaning the snow in front of catch basins as needed.
