Re: **Emmons Street/North Center Point Road/Robins Intersection Phase II Paving Package**

Description: **Temporary 4-way Stop at Willman and Center Point Road**

Report:

We plan to open all lanes of traffic on Center Point Road on Monday October 30. The construction will be completed which means we will remove all the construction zone traffic control according to the specification manual on Uniform Traffic Control Devices. The current 4-way stop condition at Willman Street and Center Point Road is part of the temporary traffic control provided by the contractor during all stages of the construction. If the Council wishes to proceed with a permanent stop condition at this location, we should be authorized to continue with the temporary 4-way stop condition until such time as we can provide the design and materials for a permanent installation.

Recommendation:

Engineering recommends approval of a temporary 4-way stop condition at the intersection of Willman Street and Center Point Road. If you need further information, please let us know.

DRAFT

RESOLUTION NO. 17-
City Council

RESOLUTION AUTHORIZING THE PLACEMENT OF TEMPORARY FOUR-WAY STOP SIGNS AT THE INTERSECTION OF WILLMAN STREET AND CENTER POINT ROAD

BE IT RESOLVED BY THE CITY COUNCIL OF HIAWATHA, IOWA, authorizing the placement of temporary four-way stop signs at the intersection of Willman Street and Center Point Road until permanent traffic signalization can be designed and installed. Traffic regulations will be applied to the temporary four-way stop intersection.
