Re: April Public Works Report

Streets – April was a month of routine work. We did the yardwaste pickup around the City. During the Edgewood Rd Phase 1 project last Fall a couple of the farm field entrances were removed as part of the ditch work. We had to installed some storm water pipe and re-rock these entrances. There were a couple minor snow events that required some sanding. We started installing some of the signs for the lane conversion re-striping. We sweep streets and did our pothole filling on Edgewood Rd. Vehicles serviced: 800, 310.

Sewer – We are having an issue with a pump in the Edgewood lift station. This pump is in the process of being rebuilt. Something got caught in the impellers and damaged the pump. Should be re-installed this month.

Storm Water – We re-graded the ditch behind 707 Kainz Dr. to provide better drainage.
