Re: October Public Works Report

Streets – Our big project this month was working on the new zero entry ramp in front of City Hall. We were able to get it all done in 5 days and it came out good. We finished up our N. Compton street repair and that also came out good. We did the first leaf pick up. We swept leaves from the streets. We installed some of the signage on the Center Point Rd/Emmons intersection project. We winterized the irrigation system and the splash pads. We worked on the Water Dept truck that has broken utility box mounts. Vehicles serviced: 850, 730.

Sewer – All lift stations are working correctly.

Storm Water – Nothing to report

Actual hours worked by Public Works employees in each department. Leave with pay hours are not included.
