Re: Fork Truck Replacement

The 2000 fork lift truck we have is in need of replacement. We purchased it used in 2007 and we will replace it with a newer used unit. Brand new units cost about $25,000. Since it's not a daily use vehicle another used one will work out fine. I received 3 quotes for a replacement unit. I recommend that we purchase a 2012 Clark Fork Truck from Torrance for $10,450. This unit is a little more money than the Toyota but it is 3 years newer and has about 4,000 less hours on it. I have money budgeted in the Equipment Reserve Fund for this vehicle.

Let me know if you have any questions.
