Re: September Public Works Report

Streets – September was a pretty wet month. We had about 7 inches of rain and normal is 3.5 inches. We had our EAB citizen informational meeting. There were about 12 people there which I thought was pretty good. It went very well. We removed some dead trees at various locations. We took down the USA flags. We installed some no parking signs on N. 10th Ave and in Rolling Prairie and Dell Ridge subdivisions. We helped the Parks remove the splash pad surface at Tucker Park. Vehicles serviced: 565, 300, 860, 840.

Sewer – Still having issues out at the County Home Rd lift station. We contacted REC and they have been having power issues in that area so we think that is causing all the problems. Rec is working to get this figured out.

Storm Water – We jetted a drain tile on N16th Ave after receiving a request from a citizen. We replaced the concrete in front of a catch basin on Fitzroy Rd to help improve the flow of water into it. We installed a new culvert in a farm culvert on Edgewood Rd because it the old one was collapsed.
