

Minutes

Hiawatha Storm Water Advisory Committee

January 19, 2017 at 5:00 pm-6:00pm

City Hall Multi-purpose Room

1. Call to order-Present:

Kevin Neuendorf-107 Blair's Ferry Crossing

Ethan Ronnebaum-202 8th Avenue

John Bender-City Engineer

Patrick Parsley-Community Development Director

2 Minutes: John Bender provided the minutes of the September 29, 2016 meeting

3 Discussion of ordinance final drafts:

a. Chapter 101 Storm Water Drainage Systems and 102 Illicit Discharge

- i. The discussion of the 101 ordinance was to update section 101.03 by removing the fee section and adding discussion the fee will be established from time to time by City Council action. This will eliminate the need to update this ordinance on an annual basis.
- ii. The discussion of section 102 was to improve this section for a fee charge to private property if the City crews perform work on an emergency basis on a storm sewer system that was determined to be private.

b. Chapter 162 Storm Water Drainage System

- i. The discussion of this ordinance has updated section 162.03 definitions. We also eliminated section 162.04 and section 162.05 regarding the affidavit of property interest. We also updated section 162.19 regarding the certification and maintenance for detention facilities.
- ii. The section 165.50 of the Unified development Code was also discussed and a lot of the language in section 162 is identical in the development code. Staff made revisions to 165.50 and the proposed changes were approved by the City Council on March 1, 2017.

- iii. The ordinance change to authorize the formation of the Storm Water Advisory Committee needs to be added to Chapter 162. It was decided the best section to revise was section 162.21, administration. Staff will revise this section and place on the next agenda.

4 Other business:

- a. Ordinance 167 filling, Grading, Erosion Control
- b. Cedar Rapids Topsoil Rule

5 Other discussions

- a. Next Meeting March 23, 2017

6 Adjourn
